MCA Project - Input Quality Control Management Information System (Agriculture Department,Government of Puducherry)

Plugins : pdf reports (DOMPDF) , phpmailer

Domain: PHP Codeigniter Framework, HTML5, Css3, JavaScript, jQuery

Project Link for Demo : http://deragavila.cf/ragava_trail/login

Project Description :

The former give some sample seed to the agriculture officer. The seeds are send for laboratory testing. Then the seed report details are uploaded in online portal through the agriculture officer (seed,fertilizer,pesticide inspector).

After analysing the full testing report details. The inspector send the report to the deputy director through online port. The director check the report details and approve the report through online port. After the director approval the agriculture officer can download the report in pdf format. Others like the farmers and the stakeholders can also see the report details through the online port when they need it.
